SEAN SWANSON
FULL-STACK DEVELOPER

Summary

Full-stack web developer obsessed with beauty and utility in tech. My optimism and tenacity to pursue excellence motivates my methods of creative problem solving resulting in applications that are fulfilling and useful. My formal education in philosophy, past history of leadership, and time spent practicing the arts has encouraged taking a holistic approach to any encountered challenges.

Projects

Chairman of the Board
A retro corporate ladder simulator game, à la Oregon Trail. Created with HTML5, CSS3, JavaScript/jQuery

mndf.ll
A full-stack daily journal and goal tracking app for cultivating an enriched life featuring user auth, external API and database utilization.

Hue
A MERN-stack color detection utility for designers featuring cloud uploading and asynchronous operations.

PokèDex
A PEN-stack Pokémon encyclopedia as a study of RESTful API architecture and artistic design.

Education

General Assembly
Full-Stack Web Development 2018
480+ hour immersive coding bootcamp program dedicated to creating full stack web applications.
Agile, project-based development primarily using the MERN Stack (MongoDB, Express JS, React JS, Node JS) both individually and with a team.

University of Washington
B.A. Philosophy 2015
Concentration in ethics, metaphysics, and philosophy of art (aesthetics).

Bellevue College
A.A. 2013
Graduated concurrently with my High School Diploma thru the Running Start program.
